Contents Volume 71

No. 1 (February 2004)

Dietary fat regulates mammary stearoyl CoA desaturase expression and activity in lactating mice **K Singh, DG Hartley, T McFadden and DDS Mackenzie** 1

Goats' milk xanthine oxidoreductase is grossly deficient in molybdenum **D Atmani, M Benboubetra and R Harrison** 7

Primary structure of water buffalo α-lactalbumin variants A and B **L Chianese, S Caira, S Lilla, F Pizzolongo, P Ferranti, G Pugliano and F Addeo** 14

Functional expression of bcl-2 protein family and AIF in bovine mammary tissue in early lactation **M Colitti, CJ Wilde and B Stefanon** 20

Molecular modelling of the multiphosphorylated casein phosphopeptide α_{s1}-casein (59–79) based on NMR constraints **NL Huq, KJ Cross and EC Reynolds** 28

Effects of selective and complete dry therapy on prevalence of intramammary infection and on milk yield in the subsequent lactation in dairy ewes **C Gonzalo, JA Tardáguila, LF De La Fuente and F San Primitivo** 33

Fate of ivermectin residues in ewes' milk products **V Cerkvenik, B Perko, I Rogelj, DZ Doganoc, V Skubic, WMJ Beek and HJ Keukens** 39

Oxidative stability of buttermilk as influenced by the fatty acid composition of cows' milk manipulated by diet **D Kristensen, RV Hedegaard, JH Nielsen and LH Skibsted** 46

A comparision of the composition, coagulation characteristics and cheesemaking capacity of milk from Friesian and Jersey dairy cows **MJ Auldist, KA Johnston, NJ White, WP Fitzsimons and MJ Boland** 51

Effects of including silage in the diet on volatile compound profiles in Montasio cheese and their modification during ripening **B Stefanon and G Procida** 58

Algal meal supplementation of the cows' diet alters the physical properties of milk fat **AP Singh, CA Avramis, JKG Kramer and AG Marangoni** 66

Casein proteolysis in human milk: tracing the pattern of casein breakdown and the formation of potential bioactive peptides **P Ferranti, MV Traisci, G Picariello, A Nasi, V Boschi, M Siervo, C Falconi, L Chianese and F Addeo** 74

Protease-induced aggregation of bovine α-lactalbumin: Identification of the primary associating fragment **J Otte, R Ipsen, AM Ladefoged and J Sørensen** 88

High pressure treatment of bovine milk: effects on casein micelles and whey proteins **T Huppertz, PF Fox and AL Kelly** 97

Texture, proteolysis and viable lactic acid bacteria in commercial Cheddar cheeses treated with high pressure **C Wick, U Nienaber, O Anggraeni, TH Shellhammer and PD Courtney** 107

Microstructure and rheology of an acid-coagulated cheese (Karish) made with an exopolysaccharide-producing *Streptococcus thermophilus* strain and its exopolysaccharide non-producing genetic variant **AN Hassan, M Corredig, JF Frank and M Elsoda** 116

Induction of stress tolerance in *Lactobacillus delbrueckii* ssp. *bulgaricus* by the addition of sucrose to the growth medium **J Silva, AS Carvalho, H Pereira, P Teixeira and PA Gibbs** 121

Reversible cold gelation of sodium caseinate solutions with added salt **AJ Carr and PA Munro** 126

Obituary 128

No. 2 (May 2004)

Activities of the enzymes of hepatic gluconeogenesis in periparturient dairy cows with induced fatty liver **A Murondoti, R Jorritsma, AC Beynen, T Wensing and MJH Geelen** 129

Hormone-dependent milk protein gene expression in bovine mammary explants from biopsies at different stages of pregnancy **PA Sheehy, JJ Della-Vedova, KR Nicholas and PC Wynn** 135

Metabolic safety-margins do not differ between cows of high and low genetic merit for milk production **CH Knight, MA Alamer, A Sorensen, IM Nevison, DJ Flint and RG Vernon** 141

Effect of recombinant cytokines on leucocytes and physiological changes in bovine mammary glands during early involution **DN Wedlock, AR McCarthy, EE Doolin, SJ Lacy-Hulbert, MW Woolford and BM Buddle** 154

Mammary cisternal size, cisternal milk and milk ejection in Murrah buffaloes **CS Thomas, K Svennersten-Sjaunja, MR Bhosrekar and RM Bruckmaier** 162

Influence of intramammary infection and non-infection factors on somatic cell counts in dairy goats **C Luengo, A Sánchez, JC Corrales, E Fernández and A Contreras** 169

Milk L-lactate concentration is increased during mastitis **SR Davis, VC Farr, CG Prosser, GD Nicholas, SA Turner, J Lee and AL Hart** 175

DGAT1 polymorphism in *Bos indicus* and *Bos taurus* cattle breeds **B Kaupe, A Winter, R Fries and G Erhardt** 182

High polymorphism in the κ-casein (*CSN3*) gene from wild and domestic caprine species revealed by DNA sequencing **OC Jann, E-M Prinzenberg, G Luikart, A Caroli and G Erhardt** 188

The influence of oxidation on proteolysis in raw milk **L Wiking and JH Nielsen** 196

Bovine milk composition parameters affecting the ethanol stability **MS Chavez, LM Negri, MA Taverna and A Cuatrín** 201

Thermal stability of β-lactoglobulins A and B: effect of SDS, urea, cysteine and N-ethylmaleimide **JI Boye, CY Ma and A Ismail** 207

High-level coproduction of the bacteriocins nisin A and lactococcin A by *Lactococcus lactis* **A Fernández, N Horn, MJ Gasson, HM Dodd and JM Rodríguez** 216

Lactobacilli isolated from kefir grains: evidence of the presence of S-layer proteins **GL Garrote, L Delfederico, R Bibiloni, AG Abraham, PF Pérez, L Semorile and GL de Antoni** 222

Diversity of lactic acid bacteria isolated from AOC Salers cheese **C Callon, L Millet and M-C Montel** 231

Evaluation of biogenic amines and microbial counts throughout the ripening of goat cheeses from pasteurized and raw milk **S Novella-Rodríguez, MT Veciana-Nogués, AX Roig-Sagués, AJ Trujillo-Mesa and MC Vidal-Carou** 245

How teat canal keratin depends on the length and diameter teat of the canal in dairy cows **CO Paulrud and MD Rasmussen** 253

No. 3 (August 2004)

Strong phylogeographic relationships among three goat breeds from the Canary Islands **M Amills, J Capote, A Tomàs, L Kelly, G Obexer-Ruff, A Angiolillo and A Sanchez** 257

Physical properties of milk in relation to chemical changes in mammary secretion during transition from colostrum to milk **BD Madsen, MD Rasmussen, MO Nielsen, L Wiking and LB Larsen** 263

Effect of vitamin E supplementation on neutrophil function, milk composition and plasmin activity in dairy cows in a commercial herd **I Politis, I Bizelis, A Tsiaras and A Baldi** 273

Effect of feeding or abomasal infusion of canola oil in Holstein cows. 1. Nutrient digestion and milk composition **PK Chelikani, JA Bell and JJ Kennelly** 279

Effect of feeding or abomasal infusion of canola oil in Holstein cows. 2. Gene expression and plasma concentrations of cholecystokinin and leptin **PK Chelikani, DR Glimm, DH Keisler and JJ Kennelly** 288

Increasing magnesium intakes in relation to magnesium absorption in dry cows **S Jittakhot, JT Schonewille, H Wouterse, AWJ Uijttewaal, C Yuangklang and AC Beynen** 297

Effect of different milking intervals on the composition of cisternal and alveolar milk in dairy cows **M Ayadi, G Caja, X Such, M Rovai and E Albanell** 304

Effect of subclinical intramammary infection on somatic cell counts, *NAGase* activity and gross composition of goats' milk **G Leitner, U Merin, N Silanikove, E Ezra, M Chaffer, N Gollop, M Winkler, A Glickman and A Saran** 311

Changes of physicochemical indicators during mastitis and the effects of milk ejection on their sensitivity **RM Bruckmaier, D Weiss, M Wiedemann, S Schmitz and G Wendl** 316

Fast biosensor immunoassays for the detection of cows' milk in the milk of ewes and goats **W Haasnoot, NGE Smits, EM Kemmers-Voncken and MGEG Bremer** 322

The roles of disulphide and non-covalent bonding in the functional properties of heat-induced whey protein gels **P Havea, AJ Carr and LK Creamer** 330

Selection of acid tolerant Bifidobacteria and evidence of a low-pH-inducible acid tolerance response in *Bifidobacterium longum* **N Takahashi, J-Z Xiao, K Miyaji, T Yaeshiima, A Hiramatsu, K Iwatsuki, S Kokubo and A Hosono** 340

Controlled production of Camembert-type cheeses. Part I: Microbiological and physicochemical evolutions **M-N Leclercq-Perlat, F Buono, D Lambert, E Latrille, H-E Spinnler and G Corrieu** 346

Controlled production of Camembert-type cheeses. Part II: Changes in the concentration of the more volatile compounds **M-N Leclercq-Perlat, E Latrille, G Corrieu and H-E Spinnler** 355

Influence of manufacturing conditions on the conjugated linoleic acid content and the isomer composition in ripened French Emmental cheese **SP Gnädig, J-F Chamba, E Perreard, S Chappaz, J-M Chardigny, R Rickert, H Steinhart and J-L Sébédio** 367

Changes in lipid fractions and sensory properties of Idiazabal cheese induced by lipase addition **LJR Barron, I Hernández, A Bilbao, CE Flanagan, AI Nájera, M Virto, FJ Pérez-Elortondo, M Albisu and M De Renobales** 372

Volatile compounds in cheeses made from ewes' raw milk, ripened with a lactic culture **JA Centeno, E Fernández-García, P Gaya, J Tomillo, M Medina and M Nuñez** 380

No. 4 (November 2004)

A mathematical model for mammary fatty acid synthesis and triglyceride assembly: The role of Stearoyl CoA Desaturase (SCD) **PR Shorten, AB Pleasants and GC Upreti** 385

Octanoate stimulates cytosolic triacylglycerol accumulation and CD36 mRMA expression but inhibits Acetyl coenzyme A carboxylase activity in primary cultured bovine mammary epithelial cells **T Yonezawa, S Yonekura, M Sanosaka, A Hagino, K Katoh and Y Obara** 398

Differential allele-specific accumulation of bovine kappa-casein mRNA throughout lactation **D Vachon, M Britten, J Morisset, D Petitclerc and G Robitaille** 405

Decision Tree analysis to evaluate dry cow strategies under UK conditions **EA Berry, H Hogeveen and JE Hillerton** 409

Milking regimes to shorten milking duration **T Clarke, EM Cuthbertson, RK Greenall, MC Hannah, E Jongman and D Shoesmith** 419

Comparative depletion of ivermectin and moxidectin milk residues in dairy sheep after oral and subcutaneous administration **F Imperiale, A Lifschitz, J Sallovitz, G Virkel and C Lanusse** 427

Quality of milk and of Canestrato pugliese cheese from ewes exposed to different ventilation regimens **M Albenzio, R Marino, M Caroprese, A Santillo, G Annicchiarico and A Sevi** 434

Genotypic and technological characterization of enterococci isolated from artisanal Fiore Sardo cheese **S Cosentino, MB Pisano, A Corda, ME Fadda and C Piras** 444

In vitro screening of potential probiotic activities of selected lactobacilli isolated from unpasteurized milk products for incorporation into soft cheese **V Coeuret, M Gueguen and JP Vernoux** 451

Amino acid transamination in permeabilized cells of *Lactobacillus helveticus, Lb. paracasei and Lb. danicus* **BV Thage, U Houlberg and Y Ardo** 461

Interactions of fat globule surface proteins during concentration of whole milk in a pilot-scale multiple-effect evaporator **A Ye, H Singh, MW Taylor and SG Anema** 471

High pressure thermal denaturation kinetics of whey proteins **J Hinrichs and B Rademacher** 480

High pressure-induced denaturation of α-lactalbumin and β-lactoglobulin in bovine milk and whey: a possible mechanism **T Huppertz, PF Fox and AL Kelly** 489

Susceptibility of plasmin and chymosin in Cheddar cheeses to inactivation by high pressure **T Huppertz, PF Fox and AL Kelly** 496

Susceptibility of bovine osteopontin to chymosin **H Kumura, A Miura, E Sato, T Tanaka and K-I Shimazaki** 500
